

## Height Adjustable Tables

Whether it's for a university, a manufacturing facility or a hospital laboratory, Symbiote tables give you the freedom to make functional height adjustments for a comfortable seated or standing position. Choose from comprehensive work surface materials with riser frames, mechanical options and casters or glides. Our UL Recognized tables are compatible with all Symbiote furniture systems and freestanding products to enhance your modular space.

## Symbiote Table Solutions

Choose from four product lines with mobile, fixed or height-adjustable options. Our tables allow your equipment to perform flawlessly in laboratory, R&D, government and learning environments. And, the ErgoStat® line has riser frames to provide upright support for hanging components.

ErgoStat

Riser Frame: 36 inches of component adjustment above surface  
 Worksurface length: 48, 60, 72 and 96 inches  
 Worksurface depth: 30 and 36 inches  
 Mechanical: electric or positionable, height-adjustable 15-inch range  
 Base: 36, 48, 60, 72 and 96 inches  
 Leveling glides or casters with totalock brakes

### Mechanical

Electric bases are equipped with a 120 volt, 60 Hertz 4.0 amp motor draw, a control box with rocker switch and a 9½ inch power cord. Electric bases rise at ½ inch per second. Positionable bases adjust in one inch increments with threaded fasteners.

### Load Capacity

Electric bases have a gross dynamic lifting load capacity of 750 pounds evenly distributed. Table and WorkTable bases have a static load capacity of 750 pounds evenly distributed. The 4-Legged table has a static load capacity of 1,000 pounds evenly distributed.

### Assemblies

Aluminum leg assemblies travel from 26½ to 41½ inches to the underside of the surface.

ErgoStat

Table

Worksurface length: 48, 60, 72 and 96 inches  
 Worksurface depth: 24, 30 and 36 inches  
 Base: 36, 48, 60, 72 and 96 inches  
 Mechanical: electric or positionable, height-adjustable 15-inch range  
 Leveling glides or casters with totalock brakes

Table

WorkTable

Worksurface length: 48, 60, 72 and 96 inches  
 Worksurface depth: 30 or 36 inches  
 Base: 48 and 72 inches  
 Mechanical: electric or positionable, height-adjustable 15-inch range  
 Leveling glides or casters with totalock brakes

WorkTable

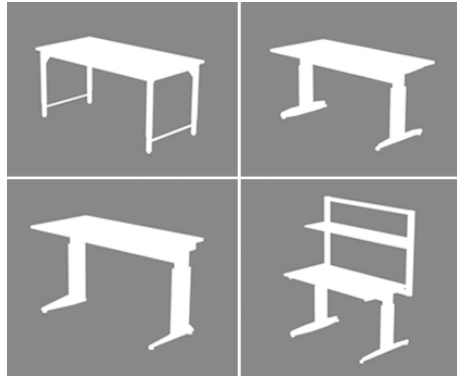

4-Legged Table

Worksurface length: 48, 60, 72 and 96 inches  
 Worksurface depth: 24, 30 and 36 inches  
 Base: 48, 60, 72 and 96 inches  
 Mechanical: positionable, height-adjustable 14-inch range  
 Leveling glides or casters with totalock brakes

4-Legged Table

Symbiote researches new technology in height adjustable tables consistently raising industry standards for quality, functionality and ease-of-use.
