

# SYMBIOTE

## Case Study

### TECH LAB

Confidential Customer, Silicon Valley, CA

One of Symbiote's tech customers requested a custom table design. The function of the radiation table is to study the effects of sunlight exposure on technology. Learn more about the design process on [LinkedIn](#) or [YouTube](#).

### PRODUCTS

Custom electric radiation table, 26" height adjustment range, 625 lb. lift capacity. Cover shade remotely opens/closes and blocks radiation from the heat light placed above the unit.

### PROJECT SCOPE / PARTICIPANTS

Installation: 2017

Symbiote Representative: Matt Witkop, [Matt Witkop Associates](#), San Jose, CA
