

AEROSPACE CUSTOM TABLE

Boeing, Renton Production Facility, Washington

Boeing requested a heavy duty, height adjustable table design for the Renton location, the most efficient airplane factory in the world. The drawers of the table store heavy tools used in the assembly of 737 Next Generation and MAX airliners.

PRODUCTS

Custom electric, height adjustable ErgoStat with drawers
Riser Frame, not shown, attaches to table base

PROJECT SCOPE / PARTICIPANTS

Installation: 2017

Symbiote Representative: Charlie Berg, [Workpointe](#), Seattle, WA
