

SYMBIOTE

Case Study

PHOTONICS TECHNOLOGY LAB + CLASSROOM

Lake Washington Institute of Technology, Kirkland, WA

A grant from the National Science Foundation funded the first photonics lab in the Northwest. This high-tech field encompasses opto-electronics, digital imaging, spectroscopy and optical systems. Heavy duty tables support eight lasers along with mobile storage for maximum flexibility.

PRODUCTS

4-Legged, heavy duty tables with phenolic worksurfaces

Freestanding steel casegoods

Mobile cabinets

PROJECT SCOPE / PARTICIPANTS

Classroom and lab workstations for 24 students

Installation: 2017

Symbiote Representative: Doug Winger, Workpointe, Seattle, WA
